

István Daróczi

Front-end Web Developer

Phone: +40747357781
Address: str. Lt. col. Pretorian, nr. 1, bloc N118, ap. 20,
Zalău, Sălaj county
Email: isti.daroczi@gmail.com

I am a software developer working with modern web technologies, enthusiastic about collaborating in a team environment. I am a flexible person who can easily adapt in new environments. My patience and ambition helps me complete all my tasks. I am eager to learn new technologies and grow professionally, seeking to find challenges that would help me improve my knowledge. In order to achieve these goals, I believe that my teamwork and communication skills come in handy.

EXPERIENCE

Self

May 2022 - present

Fullstack web developer

- Analyzing product backlogs to be divided in smaller UI and backend tasks.
- Developing and implementing new features for web-based applications.
- Debugging to resolve technical issues.
- Collaborating with other developers on team projects.
- Used and gained experience in version control systems, ex. Azure DevOps.

Starting from March 2023, I am working also on the back-end side of the projects with technologies like C# - .NET framework, using SQL database.

Worked on team projects like a web-application where the users can manage their travel information related to work, filling in their travel-preferences, being able to access every detail about their trip, seeing every expense they have.

Worked on a web-app where the managers can preselect, nominate, take actions/notes and choose high potential users based on a multitude of factors and informations.

Worked on a resource management app where the project managers can assign resources on different projects and the subsequent tasks, having a schedule where they can write the time assigned on a task for each user.

Also worked with logic apps, power apps and sharepoint lists, integrating automated workflows.

BitEngine Development

February 2022 - May 2022

Internship - Assistant programmer

- I mostly was working on the styling of the presentation page of our project in AngularJS, CSS. In addition I did some styling also on the mobile and web view of the application, which was done with Flutter (Dart)
- I had some contribution to the back-end development of both the presentation page and application with the help of Javascript and Node.js

Global Topo SRL

October 2019 - December 2020

Land Surveyor

- Followed local, regional and national guidelines for land surveying.
- Performed field calculations to complete assessments.
- Measured and marked property lines and key topographic features.
- Completed complex technical surveys for development of roadway, intersection and bridge construction plans.
- Read and used topographical data to complete analysis of land plots and roadways.
- Set up precise measurement and control equipment, including GPS and Total-stations.

PROJECTS

My Online CV

<https://online-cv-daroczi-istvan.netlify.app/>

It is a project which I did on my front-end web developer course.

It is a single-page-app which was made in Javascript and ReactJS.

The project can be found on my GitHub page: <https://github.com/isti96/OnlineCV>

Travel Documents

<https://traveldoc.netlify.app>

It is a project about finding out what travel documents you need if you are travelling from one country to another.

I used Javascript and ReactJS for the client side, the server side is made with Node.js and Express.js. For the database part I used MongoDB and Mongoose.

The repository for the project is: <https://github.com/isti96/TravelDoc>

For more projects check out my Github account

<https://github.com/isti96?tab=repositories>

SKILLS

Programming languages and technologies:

- Javascript (ReactJS, AngularJS, Aurelia, Svelte Kit)
- HTML5
- CSS3 / LESS / Tailwind
- TypeScript
- C#
- .NET Framework
- Node.js
- Dart (Flutter)

Tools:

- MongoDB Database
- SQL Database
- Mongoose
- MS Office
- Webpack
- GitHub
- MS Visual Studio Code
- Gitlab
- Firebase (Firestore)

Operating Systems:

- Windows

Soft skills:

- Fast learner
- Friendly
- Cooperative
- Curious
- Team-player
- Creative
- Punctual
- Patient
- Perseverent

EDUCATION

Informal School of IT

Jan 2021 - June 2021

Front-End Web Developer

I have attended 5 month course at the informal School of IT and I've learned Web development concepts such as HTML5, CSS3, JavaScript (ECMAScript6 OOP concepts, variables, primitive types, AJAX, API, functions, hoisting, DOM) and ReactJS. I've acquired knowledge in how to build a responsive, functional website. We had weekly projects which were meant to improve our knowledge and practice. We also learned about Github basic principles and commands.

We had a final project, where we had to make our single-page-app online CV. The project can be found on my GitHub page and also there is a link in the contact section for it.

Technical University of Cluj-Napoca

October 2015 - July 2019

Bachelor in Science

Faculty of Civil Engineering

Silvania National College

September 2011 - June 2015

High School Diploma

LANGUAGES

English (Limited working proficiency), **Hungarian** (Professional working proficiency), **Romanian** (Professional working proficiency)
